EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward Meilman on December 1, 2006.

On lines 3-4 of claim 1, the phrase "comprising at least one polar lipid which is a glycolipid, at least one non-polar lipid which is a glyceride," was changed to --which is a combination of (a) at least one polar lipid which is a glycolipid and (b) at least one non-polar lipid which is a glyceride,--.

Claim 32 was canceled.

2. The following is an examiner's statement of reasons for allowance: Application serial no. 10/516,858 is being allowed in view of the appropriately filed terminal disclaimer received on November 9, 2006, and since none of the prior art of record teaches or fairly suggests a solid heparin tablet composition consisting essentially of heparin, a glycolipid, a glyceride and either water or an alcohol, wherein the tablet composition has no polymer therein and has a melting point of 25⁰C or higher. The prior art of record only teaches of solid compositions containing heparin and a lipid component that also have a polymer therein for hardening the composition, which is excluded in the composition recited in the instant claims. In addition, the prior art only

Art Unit: 1743

teaches of oily liquid compositions containing heparin and a lipid component at temperatures lower than 25°C, not a solid having a melting point of 25°C or higher.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
